Packaging			
Other			
Total costs (3)			
G. Customs value of re-imported goods (1+2+3)			MKD (4)
H. Customs duties of the imported goods			
Tariff code	Tariff rate	Customs value (4)	MKD (9)
I. VAT for the imported goods (18% from (4+5))			MKD (6)
J. Statement			
The above stated data is correct.			
The goods which at the moment of temporary export were			
<ul style="list-style-type: none"> • Domestic goods originating from the Republic of Macedonia, or • Domestic goods imported from other countries and released in circulation with tariff rate different from zero, or • Goods in inward processing procedure 			
Had been exported according to the export declaration stated in section B. When the goods were exported there was no return of export duties and VAT.			
Free of charge repair of the goods			
The goods were repaired without any charge (including the transport, etc.) for the holder of the authorization, due to the obligations from the guarantee or due to production error. When the goods were initially declared for free circulation, the error had not been taken in consideration at the phase of determining the customs value and the tariff rate.
